An explanation of the symbols used to designate sizes of publications is given on the inside of the front cover.

Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Clearinghouse for Federal Scientific and Technical Information, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

NOTE.—*Entries appear in this index under subjects or titles, Bulletins, circulars, etc., having no specific subjects are entered under the issuing office only. Index citations are to entry numbers in the catalog.*

A

A.R.S. series, 2-9
 Aamot, Haldor, W. C., buoyancy stabilized hot point drill for glacier studies, 135
 Abernethy, R. F., colorimetric method for arsenic in coal, 974
 Aberrations, *see* Distortions.
 Ablating materials, radio frequency transmission characteristics, 1102
 Absorption:
 absorption rate sticking probabilities for oxygen on columbium and dilute columbium-zirconium alloys, 1105
 optical, in fused silica during TRIGA pulse irradiation, 1015
 Abstracts, *see* subjects.
 Acceleration:
 angular, head position on habituation of vertical nystagmus, 209
 effects on human performance and physiology with special reference to transverse G, 81
 relation of signal light intensity to physiologic end points during +G_z acceleration, 88
 Accelerators, National Accelerator Laboratory ground-breaking ceremony (remarks), 204
 Accounting machines, current industrial reports, 234
 Accounts and accounting, Army internal review guide, pamphlet, 142
 Acetazolamide, low doses, psychomotor effects in aiding accommodation of men to altitude, 99
 Acetic acid, thermal stability of ethylenedinitrilotetraacetic acid and its salts, rate of decomposition in aqueous solution determined by NMR techniques, 1267A
 Acidosis, stress response in chronic hypercapnia, 919
 Acids, reactivity and interaction of, spectral characteristics, USSR study, 836
 Acreage marketing guides, 503
 Actinomycins, action of actinomycin 2703 on RNA metabolism of spinal motoneurons under conditions of hyperfunction, histochemical data, USSR study, 843
 Actions at law, highway condemnation law and litigation State by State summary of cases reported, 1946-61, lists, 1360
 Acts of Congress, *see* Law.
 Actuarial notes, 1386-87
 Acute somatic effects in primates of protons to 400 MeV, 82
 Adams, James J., synthesis of human response in closed-loop tracking tasks, 1074
 Adams, John G., remarks, Nov. 21, 1968, 257
 Addresses, lectures, etc.:

- Aerial photography:
 ASCS maps, status, 22
 television cloud photography, meteorological satellite data, catalog, ESSA 1, 617
- Aerodynamics:
 Characteristics—
 computing program for axial distribution of normal force for axisymmetric multistage launch vehicles, errata, 1048
 parasol-wing-body combination utilizing favorable lift interference at Mach numbers from 3.00 to 4.63, 1081
 transonic, of powered models of several Apollo launch-escape vehicle configurations, 1075
 low-speed high-lift, of one-fifth scale variable-sweep supersonic transport, wind-tunnel investigation, 1076
see also Airplanes—Shock (mechanical)—Wings (aircraft).
- Aeroelasticity, aeroelastic divergence of two experimental unguided launch vehicles, analysis, 1077
- Aeroembolism, decompression sickness in simulated space flight, treatment, 85
- Aeromedical reviews, 80-81
- Aeronautical charts, *see* Maps and charts.
- Aeronautical Exposition in United States, International, *see* International Aeronautical Exposition in United States.
- Aeronautical supplies, spare parts, need for more competition in procurement of, Defense Dept., GAO report, 712
- Aeronautics:
 air transport services, agreement with Union of Soviet Socialist Republics, 1452
 partial revision of radio regulations, Geneva 1959, with final protocol, report, 438
 skilled aviation personnel, national program for training, preliminary design study, 559

- Africa, West Africa conference on nutrition and child feeding, proceedings, 1345
- Agar citrate mannitol agar medium for separating *Escherichia coli* paracolons from *Shigella*, 83
- Age:
 and disability, effect on access to public income-maintenance programs, 1394
 middle-aged and older workers full employment act of 1968, bill text and section-by-section analysis, 497
- Aged:
 adequacy of employment services for older workers, hearings, 455
 food guide for older folks, 38
 health insurance, directory of providers of services—
 extended care facilities, 1389
 home health agencies, 1389A
 hospitals, 1390
 independent laboratories, 1391
 housing for the elderly—
 community improvement in Wilmerding, Pa. (address), 769
 life safety from fire, guide, 785
 status (address), 782
 usefulness of model cities program to the elderly, hearings, 456
- Aggregates, preplaced concrete, resistance to freezing and thawing, 604
- Aging, Special Committee on, Senate, hearings, 455-456
- Agricultural commodities, *see* Agricultural products.
- Agricultural conservation program:
 annual reports—
 Michigan, 23
 Montana, 24
- Agricultural credit:
 farm credit act of 1933, amend, hearing, 386
 farm credit system, functions and organization, 620
 Federal farm loan act, amend, hearing, 386
- Agricultural products:
 agricultural commodities, agreement with—
 Bolivia, 1455
 Indonesia, 1451
 food and agricultural exports directory, 667
 food and farm products, USDA grade names, 507
 foreign trade, by countries, 1966-67 fiscal year, 575
 handbook of agricultural charts, 31
 marketing research reports, 43-44
- Agricultural Research Center, Beltsville, Md., land conveyance to Hall sisters, hearings, 387
- Agricultural Research Service, ARS series, 2-9
- Agricultural Stabilization and Conservation Service, serial photography status maps, 22
- Agricultural statistics, *see* Agriculture.

Agricultural trade development and assistance act of 1954, amend to remove certain restrictions against alcoholic beverages, hearings, 387

Agriculture:

agriculture development and expansion in Nile Basin, 574
 agricultural economic reports, 565-568
 agricultural trade, South Africa, 1970 and 1975 projections, 572
 agriculture handbooks, 28-31
 Brazilian situation, a look ahead, 571
 census, 1964, final reports, 250
 Far East and Oceania situation, 1968 mid-year review, 573
 farm financial management research, theoretical analysis, 570
 foreign agricultural economic reports, 574
 Foreign Agricultural Service, miscellaneous FAS-M series, 667
 foreign development, answers to problems came from U.S. training, 56
 handbook of agricultural charts, 31
 legislation enacted, 90th Congress, review, 384
 major uses of land and water in United States, summary, 568
 scientific research, USSR, 855
 statistics, 32
 Agriculture Committee, House:
 committee print, 384
 hearings, 385-387
 report, 374
 Agriculture Department:
 careers, profiles, 45
 chemical compounds authorized for use under USDA poultry, etc., inspections, programs, lists, 508
 leaflet, 42
 marketing research reports, 43-44
 miscellaneous publications, 45-50
 PA [program aid] series, 51-55
 poultry and egg inspection and grading programs, plants operating under, list, 509
 registered agricultural pesticide chemicals, herbicides, defoliants, desiccants, plant regulators, summary of uses, 20
 telephone directory, 62
 USDA at work in northern New Mexico, 63

Air:

equilibrium dissociated, approximate relations for laminar heat transfer and shear-stress functions, errata, 1049
 radiation field in air due to distributed gamma-ray sources in ground, 186

Air bases, planning and design, theater of operations, Army technical manual, 174

Air carriers:

air transport services for U.S. contractors in Vietnam, difficulties in arranging, GAO report, 706
 certificated, route airport activity statistics, 621
 commercial aviation from 1926 to date, growth, etc. (remarks), 257
 loans, Government guaranty, amend act, hearing, 404
 local service industry, problems and challenges (address), 256
 supplemental, terms, conditions and limitations of certificates to engage in air transportation, CAB economic regulations, 255

Air drop operations:

airdrop of supplies and equipment, Army technical manual, 179
 loading environment and related requirements for platform rigged airdrop material, military standard, 543

Air Force:

career opportunities—
 physicians, 106
 ROTC cadets, 76

Air Force—Continued

careers for officers, aerospace leadership, guide, 67
 officers, scientific and technical, improvement of procurement, utilization, and retention of high quality, 79
 worldwide data personnel system, 74
 Air Force Academy, Colo.:
 assembly, 1967, final report, 64
 assembly, 1968, final report, 65
 Air Force Department:
 Air Force manuals, 68-73
 Air Force pamphlets, 74-75
 Personnel Research Laboratory, technical report, 79
 savings attainable by preventing condemnation of economically repairable equipment, GAO report, 723
 Air Force Nurse Corps, *see* Nurse Corps, Air Force.
 Air inlets (aircraft):
 engine, particle separator for CV-7A aircraft, design and component test, 180
 Air jets, conveyors, for seed cotton and cottonseed handling, 4
 Air mail, 13-cent Human Rights Year commemorative aerogramme (poster), 1304
 Air pollution:
 air quality act—
 criteria, hearings, 500
 law, compilation, 493
 progress in prevention and control report, 433
 air quality control regions, designate, report, 433
 clean air act, law, compilation, 493
 environmental quality, national policy, congressional white paper, 418
 laws, compilation, 493
 politics of pollution, transcript of radio presentation, 1344
 prevention and control, progress report, 433
 role of science and technology in pollution abatement, congressional white paper, 418
 tall stacks, various atmospheric phenomena and related aspects, bibliography, 1349
 Thanksgiving 1966 air pollution episode in Eastern United States, 1341
 Air Pollution Control Administration, *see* National Air Pollution Control Administration.
 Air quality act, *see* Air pollution.
 Air Quality Advisory Board, establish, law, compilation, 493
 Air raids, U.S. halts bombing of North Vietnam, 1440
 Air Resources Laboratories, ESSA technical memorandums, RLTM-ARL series, 613
 Air speed:
 critical-speed analysis of rigid rotors on flexible foundations, 1084
 effects of reduced, for landing approach on flying qualities of large jet transport equipped with powered lift, 1059
 hypersonic, X-15 airplane and model, flow-field investigations, 1061
 subsonic and transonic speeds, effect on base drag of recessing bases of conical bodies, 1064
 transonic speeds, effects of flexibility on lift and pitching moment characteristics of series of low-aspect-ratio wing-body combination at, 1051
 Air traffic:
 control—
 en route, 107
 facility operation, change, 624
 terminal, change, 108
 Air traffic controllers, control specialists, examination announcement, 275
 Air transportation, *see* Aeronautics—Air carriers—Transportation.

INDEX

- Aircraft:**
 analysis of numerical integration techniques for real-time digital flight simulation, 1117
 arrow-wing-body model at Mach numbers of 1.60, 2.36, and 2.96, flow-field properties, 1060
 measurement of atmospheric dewpoint from aircraft, 1262
 operating cost and performance, report, 1966 and 1967 calendar years, 253
 path of jet directed at large angles to subsonic free stream, 1132
 purchase loans to air carriers, Government guaranty, amend act, hearing, 404
 slender wing-body combinations exhibiting leading-edge separation, aerodynamics theoretical investigation, errata, 992
 STOL transport aircraft, flight tests under, IFR, 1143
 subsonic and supersonic, fluid mechanical problems, report, 1041
 subsonic jet transports, calculated and flight-measured handling-qualities factors, 1068
 supersonic flow field about axisymmetric body with N wave pressure trace, estimate, 1141
 transport, V/STOL concepts, short-haul feasibility, supplement, 993
 V/STOL, quad configuration, ducted-propeller, model, investigation, longitudinal dynamics at high duct incidence data report, 181
 VTOL—
 comparison of information display concepts for landing, 1086
 jet, hot gas recirculation and ingestion, generalized experimental investigation, 1003

 Aircrews, *see* Flight crews.
 Airdrop operations, *see* Air drop operations.
 Airfields, *see* Aviation fields—Pavements.
 Airlines, *see* Air carriers.
 Airmen, usage of combined airman certification by active airmen, an active airman population estimate, 210
 Airplanes:
 large jet transport equipped with powered lift, effects of reduced airspeed for landing approach on flying qualities, 1059
 supersonic transport—
 low subsonic flight and force investigation of model with variable-sweep wing, 1053
 wind-tunnel investigation of low-speed high-lift aerodynamics of one-fifth scale variable-sweep, 1076
 twin propeller deflected slipstream STOL model with boundary-layer control on inverted V-tail, aerodynamic characteristics, 1082
 X-15, and model up to hypersonic speeds, flow-field investigations, 1061
Airports:
 activity statistics of certified route air carriers, 621
 airport emergency operations planning, 622
see also names of places where located.
Airstreams, high-temperature, supersonic evaluation of coated molybdenum and and columbium alloys, 1100
Alabama:
 mineral industry, minerals yearbook chapter, 945
 pollution of interstate waters of Coosa River and its tributaries, conference proceedings, 662
Alaska:
 Alaska file of Secretary of Treasury, pamphlet to accompany microcopy, 1165
 interior, large aspen tortrix, *Choristoneura confictana* (Wlkr.), 679
 Alaska—Continued
 natives, national policy resolution, promote improved conditions, report, 439
 Albers, James A., design-point performance of double-containment tantalum-and-stainless-steel mercury boiler for SNAP-8, 1137
 Alcoholics, rehabilitation, report, 1368
 Aldabra Atoll, Indian Ocean, ecology, 1380
 Alder Creek mining district, Idaho, geology, 729
 Alewives, control in Great Lakes, hearings, 409
 Alfalfa, varieties, 36
 Alfaro-Bou, Emilio, ballistic limit of aluminum plates determined by exploding oil gun technique, 1047
 Algeria, Spanish Sahara boundary, study, 1445
 Alkyl benzene sulfonates, *see* Sulfonates.
 Alloys, copper-rich Cu-Ni-Fe alloys, Mössbauer effect study of magnetic ordering, errata, 1180
 see also names of metals, etc.

 lime, 943
 Alterman, Jack, capital flow matrix, 896
 Alternators, *see* Electric generators.
 Althouse, Edwin L., production of temperatures below 1°K by adiabatic demagnetization of CHP glass, 1258
Altitude:
 accommodation of men to altitude, psychomotor effects of low doses of acetazolamide, 99
 effects of two antihistamine-containing compounds upon performance at 3 altitudes, 211
 glucose tolerance in dogs exposed to altitude and drug administration—
 amphetamines, 95
 demerol, 96
 diphenhydramine, 94
 helicopter height-velocity diagram effects, investigation, 1050
 Aluminum, plates, ballistic limit determined by exploding foil gun technique, 1047
 see also names of articles manufactured from aluminum.
 AM series, 209-211
 American Association of State Highway Officials, national conference Committee on Electronics, proceedings, 1361
 American Chemical Society, men and molecules broadcast, politics of pollution, transcript of radio presentation, 1344
 American Indians, *see* Indians.
 Ammonium nitrate, reactivity of ammonium nitrate-fuel oil with pyrite-bearing ores, 975
 Ammunition, research and development at Picatinny Arsenal, Dover, N.J., improve management, GAO report, 713
 Amortization, *see* Mortgages.
 Amphetamines, glucose tolerance in dogs exposed to altitude and drug, administration, 95
 Amplifiers, modular servoamplifier for fast-response electrohydraulic control systems, design and analysis, 1115
 Anadromous fish, *see* Fish and fisheries.
 Anaerobes, laboratory methods in anaerobic bacteriology, NCDC laboratory, manual, 1339
 Analysis, *see* names of substances, etc., analyzed.
 Analytical investigation of incompressible turbulent swirling flow in pipes, 1006
 Analytical Mass Spectrometry Section, summary of activities, 1179
 Anchor worm, parasites of freshwater fishes, miscellaneous, 1410

Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, DC, is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Clearinghouse for Federal Scientific and Technical Information are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Clearinghouse for Federal Scientific and Technical Information, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at senders' risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.
